

# What's New in Citect SCADA 2016

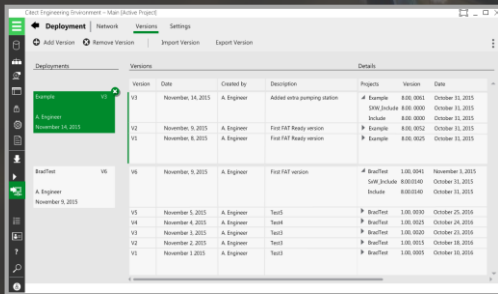

## Introducing Citect Studio – Your new Integrated Development Environment

- Replaces Citect Explorer
- Intuitive activity-based user experience
- Fresh look & feel
- Modern UI technology (WPF & .NET)

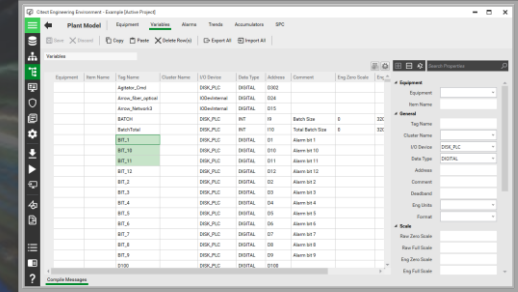

Citect Explorer

- Central store of compiled projects
- Controlled deployment of projects to servers & clients, with delta-only transfer
- Store multiple versions of projects, with local & remote rollback

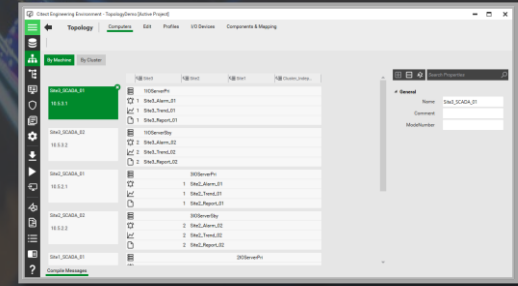

Centralized Deployment

- New user-friendly grid functionality
- Searchable, sortable, filterable, super-usable
- New Property Grid for better visibility & bulk editing

Project Editor

- Simplified SCADA Topology management
- Graphically view server infrastructure
- View Topology by machine or by cluster

Topology View
